 = Versa-Matic Bolted "Drop In" models that dimensionally interchange with Wilden clamped style and Advanced fit unit bolted units (PS820 + PS1520).

 = Versa-Matic Bolted "Drop In" models that dimensionally interchange with Versa-Matic clamp style units.

Note: "0" The 3" Aluminum Bolted "Drop In" models are standard as Versa-Matic (E3AA****9C-DV-ATEX or E3AA****9C-B-ATEX), since both Wilden and Versa-Matic clamp style model porting dimensions are so similar (≤ 1/8" or ≤ 3.175mm).
